WordPress Developer (Fresher)

Hiring organization
supernova

Employment Type
Full-time

Job Location
Shri Tuljabhavani Complex , Samarth Mandir Road, 415002, Satara, Maharashtra, India

Date posted
October 22, 2026

Description

Company: Supernova Martech | Location: Satara, Maharashtra | Type: Training-to-Hire (4 months paid training with ₹4,000/month stipend, then full-time job on successful completion)

About Us: Supernova Martech is a website design and digital marketing agency helping Indian manufacturers get more enquiries online. We build fast, conversion-focused websites for engineering and industrial companies.

About the Program: This is a 4-month hands-on training program. You will work on real client projects, not dummy assignments. You receive a stipend of ₹4,000 per month during training. Successful completion leads to a full-time job offer with Supernova Martech.

What You Will Learn and Do: Build and customize WordPress websites using Elementor or similar page builders
Convert design layouts into responsive, mobile-friendly pages
Install and configure themes, plugins, forms and WhatsApp/lead integrations

Optimize website speed, security and basic on-page SEO
Handle domain, hosting, cPanel, SSL and email setup
Fix bugs and maintain client websites

Create product and catalogue pages for B2B manufacturers

Qualifications

Freshers with BCA, BCS, BSc (IT/CS), MCA, Diploma or any graduate with a coding interest Candidates who have built at least one personal or practice website (share the link)
Willing to learn daily, take feedback and work full time from our Satara office

Job Benefits

₹4,000 monthly stipend during the 4-month training
Live project experience and portfolio

Direct mentorship from a founder with 14+ years in digital marketing

Certificate on completion of training
Full-time job offer on successful completion
